MILLER/WREIDT ADDITION AND REMODEL

This is both a renovation and transformation of an older home in the St. Anthony Park neighborhood in St. Paul. The additional space was added across the back of the home and includes a new family too, mudroom and rear entry as well as an informal eating area off the existing kitchen. Upstairs, two of the existing bedrooms were re-worked to make room for a upstairs hall that allowed access to a new couples suite. The couples suite includes a bath and walk-in closet. The exterior was completely re-signed with new siding and architectural detailing that had been either neglected or removed. New windows for all of the openings and additional insulation made the house, tighter and more energy efficient as well.

Design by Tim Fuller with Courtney Kruntorad

Construction by Ben Quie and Sons
